## 6. BMSF Contribution to method development and training (please tick 1 box and add details)

A. Project methods exist within the BMSF or elsewhere and little development is needed to collect data	
B. Project methods exist within literature & examples available to allow setup within the BMSF	
C. Project methods need to be developed with few or no literature examples to follow.	

Project setup costs, include consideration of sample preparation, training, expected mass spectrometry, who will run the samples and data analysis, are to be estimated and source of funding provided:

If A ticked method development is likely small but provide details on existing methods that are to be used within the BMSF.

If B ticked provide example publications to be followed. Also provide details and an estimate of time required for setup of methods within the BMSF below.

If C ticked, then write a brief account of the scope of the project including the BMSF contribution. *In cases where funding is limited BMSF and/or MWAC may provide support. Please discuss with BMSF Director, MWAC Director and submit proposal for consideration: <https://forms.office.com/r/ZyunRrB9YG>*
